Academic Appointments

Harvard University, Boston, MA
Weatherhead Center for International Affairs Postdoctoral Fellow,
Program on US-Japan Relations, 2023-2024

Education

University of Washington, Seattle, WA
Ph.D., Political Science, 2023

Fields: *Comparative Politics, Political Economy, Quantitative Methodology*

Committee: Christopher Adolph (Chair), Victor Menaldo, Caitlin Ainsley

Dissertation: *Three Essays on Democracy and Economic Development*

How political regimes shape economic policies and, in turn, how economic conditions stabilize or destabilize the democratic form of governance? I argue the disadvantages of democratic governance in banking regulation and empirically find evidence that democratic countries are less likely to implement macroprudential banking policies. On the latter question, I develop two methods to reevaluate the canonical debate on the influence of economic development on democratization. The first method is a class of Bayesian time-dependent Probit models to capture subtle and structural changes in the impact of income on regime transitions. I also propose a novel application of quantile regression to estimate the asymmetric influence of economic factors on the relationship between democratization and autocratization.
